

ABULABLES

Now Available for order in the United States

Making sitting areas more accessible for motorized wheelchair users is a growing concern. Our unique design is well received in the UK and Europe at the in June 2003 Dublin, Cork, Limerick and other Irish cities wheelchair users for the Special Olympics and our Tabula Table provided by Tabula UK.

Equal access to facilities is an issue now. We aim to address this need in sitting areas of outdoors and indoors with a new design.

In a time of reduced budgets and danger we hope to provide a cost effective way to make life more enjoyable for a group of people not usually catered for.

The Tabula Table is a bench table unit designed to seat 3 motorized wheelchair users and up to 6 able bodied persons. See www.simtecn.com/tabulaweb and www.tabula.co.uk

The Winer Diner™ (Tabula Table) was the Best New Product in the outdoor living category at Garden & Leisure(UK) 1997 and Garden Industry (UK) awards 1998.

In the states we are calling the Winer Diner Table, the Tabula Table as this is the only product we are offering without special order here.

The Tabula Table is made in South Africa of Brazilian Eucalyptus. Eucalyptus is a softwood with the properties of a hardwood, it is resistant to wood eating insects and requires no

treatment. The bolts & nuts are zinc plated steel and the brackets are hot-dip galvanised steel. This is a very durable product build for many years use.

We guarantee 1 year for manufacturing defects and 10 years for timber decay. However the table has the ability to last 20 years or more.

Being all wood it is an attractive table that blends with the beauty of the surroundings.

Tabula Table is the only product on the market that truly treats wheelchair users as equals, enabling seating "next" to able bodied persons on both sides and having conversations with other wheelchair users opposite.

Tabula Tables USA co-sponsored with Lexington Care Center NY a special event day featuring a yoga class for wheelchair users and Indian music at Johnson Hall State Park on Oct.1 2002. The event made front page on the Leader Hearld.

The Tabula Table received a thumbs up from wheelchair users from Lexington Center and Johnson Hall State Park has requested tables from NY State regional purchasing. We then moved the sample tables to Saratoga State Park who also expressed an interest in the tables.

In an effort to make these tables available at the lowest price possible we are offering the following con-

Johnson Hall State Park, Oct.1st 2002.
